

TO OUR PATIENTS

There is no place like home, especially when you are sick. Now you can receive quality health care in the comfortable setting of your own home if your physician determines it to be feasible.

WHAT IS HOME CARE?

Home Care is the medical care given to you under the direction of your physician(s) by a licensed health provider. The service is available around the clock throughout the year.

Our services are flexible and tailored to your specific needs. We act in partnership with involved medical and social services and continually provide status report feedback to you and your physician.

Home Health Care Network's staff work with you, your physician and your loved ones. We provide you care in the privacy of your home with special attention to your personal needs.
