

**THERE'S NO PLACE LIKE HOME TO
SUPPORT THE GROWTH AND
HEALTHY DEVELOPMENT OF A CHILD**

Our Goal is to provide the caring team of professionals your child needs to grow, heal, develop, and participate in the family as we address special health care needs. We offer a comprehensive selection of services for children age 20 years and under. As they grow older, we offer adult programs to continue to support their special needs.

With quality service delivery, BellTech assists you in creating the comfort and care your child needs. We work with you, your child, and your child's physician, and other health care team members to determine and provide the services needed to assist your child at home.

STARS IN CARE**

At Belltech Home Healthcare, we provide specialized care delivered by trained and qualified professionals for individuals and families with unique needs. We will work with the family and treatment team to plan and implement a supportive program for a child requiring home health care services. The managing physician will be a key member of the team. We identify and coordinate with payer sources and care managers to appropriately utilize available resources. We will assist families in accessing community resources. We can provide or coordinate Pharmacy, DME and supplies.
